Professional Experience

2024/04 – present Bhopal, India	Triosoftware Technologies Pvt. Ltd As a Full Stack Developer at Triosoftware Technologies, I contribute to both the frontend and backend development of web applications. I utilize my skills in React.js for building dynamic, user-friendly interfaces, while leveraging Django for robust, scalable backend solutions. My role involves working closely with the design and development teams to deliver seamless user experiences and efficient, high-performing applications.
------------------------------------	--

Projects

2024/08 – 2024/09	Dfoodo 🔗 <i>Online Restaurant Table Booking Platform</i> Worked with Dfoodo, a platform that enhances the dining experience by providing an easy-to-use solution for table reservations at restaurants, improving customer engagement and satisfaction
2024/07 – 2024/08	BookMyVenue 🔗 <i>Event Venue Booking Platform</i> Contributed to BookMyVenue, a platform that streamlines venue discovery and booking for events, enhancing user experience through efficient event space selection.
2024/05 – 2024/07	ShopUp 🔗 <i>B2B E-commerce Platform</i> Collaborated with ShopUp, a leading SaaS platform, providing customizable eCommerce solutions. Assisted businesses in building scalable online stores with integrated payment systems and inventory management features
2024/04 – 2024/04	ChataGPT Notepad 🔗 Contributed to ChatGPT Notepad, a streamlined platform for users to take and organize notes during ChatGPT interactions, enhancing productivity and information management
2024/10 – 2024/12	SwagStay 🔗 <i>Hotel Booking App</i> Developed a robust hotel booking platform featuring real-time room availability, secure payment integration, dynamic filters, personalized user recommendations, and seamless booking workflows. Enabled efficient management of hotel details such as room types, amenities, and pricing, ensuring an intuitive user experience and high scalability.
2024/12 – 2024/12	WowReviews 🔗 <i>Customer Feedback Platform</i> Facilitated review management with real-time feedback collection, sentiment analysis, user ratings, and business insights.
